

## School district finance survey

\*indicates a required field

Thank you for taking the time to fill out this short survey. Your responses will help us better understand how school districts are doing in a tough economic environment, particularly given state funding cuts. The survey, which is being sent to all Ohio school districts, will be the basis of a report that will be released in January 2013. For a **PDF preview of the questions** that will help you prepare your responses before filling out the survey online, [click HERE](#).

For data collection and analysis, we are asking respondents to include the names of their districts and district types. We will not publicly release the names of responding districts or link district names to responses unless permission is given in a follow-up interview.

### Note

If you work for or represent more than one district or entity, please fill out a separate survey for each.
